

Medication Administration – Consent and Record

The EYFS Statutory Framework 2017 states that: Medicine (both prescription and non-prescription) must only be administered to a child where written permission for **that particular medicine** has been obtained from the child’s parent and/or carer. Providers must keep a written record each time a medicine is administered to a child, and inform the child’s parents and/or carers on the same day, or as soon as reasonably practicable.

Childs Name:	How is the medication to be administered?
Medication <i>(include all medication to be administered if more than one):</i>	How does the medication need to be stored?
I give consent for this medication to be administered by Crossens Nursery School staff, as detailed above. I am aware that it is my responsibility to keep the nursery staff informed if there are any changes to this medication, including the dose or frequency in which it is to be administered or if it is to be stopped.	
Signature of parent:	Date:
Staff verification that the medication has been prescribed by a medical professional for the above child concerned.	Staff signature: Staff Name:

Should parents feel their child’s temporary condition (e.g. cold, eye infection) requires the administration of non-prescribed medication through the day, we will consider this on an individual basis and only over a maximum of 3-4 days. Medication MUST remain in its original packaging.
